Tea Market Report - Sale of 15 & 16 September 2026

MARKET SYNOPSIS

- Auction offerings totalled 5.2 M/Kgs. .
- Low Growns together with Large Leaf teas from the High & Mid Grown regions continued to sell well. Improved demand for Orthodox/Rotovane teas following quality.
- Notwithstanding the global uncertainties placing increasing burdens on exporters, the overall market reacted in a positive manner perhaps on account of declining volumes.
- Western High Growns – Best Western BOP/BOPF’s appreciated significantly following improved quality and in the backdrop of limited availability. Other Western High Grown BOP/BOPF’s continued to sell around last, whilst the BOPF grade still continued to command a premium of Rs. 100 per kg and above.
- High & Mid Grown CTC’s – Better teas continued to be stable, whilst the others were irregular and sluggish.
- Off Grades – For the 2nd consecutive week, improved activity all round and unsold volumes dropped down to a minimum.
- Dust – Better primaries sold following quality. Improved demand for secondaries and poorer sorts. Consequently, unsold volumes declined sharply.
